BSD Toolchain Working Group

EuroBSDCon 2011
The Middle of Nowhere, The Netherlands

Welcome

Welcome

- Name
- Association
- Interests

Timeline

2006: BSDElfTools started
2007: GPLv3
          Clang announced
2010: Clang self hosting
          LLVM/Clang imported
          World+Kernel bootstraps
2011: libsupc++ licensed
          libc++ ported

Missing Bits

Missing Bits

- libc++ in base

Missing Bits

- libc++ in base
- Clang cross build support

Missing Bits

- libc++ in base
- Clang cross build support
- ELF Linker

Missing Bits

- libc++ in base
- Clang cross build support
- ELF Linker
- Debugger

Missing Bits

- libc++ in base
- Clang cross build support
- ELF Linker
- Debugger
  - ELF crashdumps

Missing Bits

- libc++ in base
- Clang cross build support
- ELF Linker
- Debugger
  - ELF crashdumps
- More Architectures (MIPS, ...)

Missing Infrastructure

- External toolchain for base
- Switchable ports compiler
- WITH_CLANG_AS_CC
- ???
